## 9. JUNIOR CONFERENCE

### JUNIOR CONFERENCE

Montecatini Terme  
26 September 2013

Junior riders must attend the **JUNIOR CONFERENCE**; otherwise they will not be allowed to start the road races. Attendance will be checked.

The Junior Conference will be held from 16h00 to 18h00 on Thursday 26 September at:

**Sala Ello**

Palazzo dei Congressi,  
viale Amendola 2,  
Montecatini Terme  
[panciolihotels.it.serverweb.it/congressi.html](http://panciolihotels.it.serverweb.it/congressi.html)

*Parking for NF are located at Kursaal, Viale Puccini 2°, Montecatini Terme, which is approximately 250mtrs from the venue.*

However, we would ask all delegations to arrive 15h15 in order to allow time to sign the attendance sheet.

The aim of the conference is to present the world of cycling as a whole to Junior athletes and reveal aspects of the sport and related jobs of which they were perhaps unaware.

Over two hours the Junior riders will be given information through attractive, dynamic presentations (films, interviews, debates, speeches, personal accounts, quizzes, etc.). The themes developed will provide information on the roles of those people involved in the sport of cycling (institutions, teams, organisers, etc.). The conference aims to reassure young athletes about their future. This will be achieved by offering them the keys to understanding their environment and describing all the actors involved in the sport and their related jobs. This will shine a light on the vocational opportunities open to Juniors in the event that their athletic ambitions are not achieved.

# 10. REGULATIONS

## 10.1. MATERIAL AND CLOTHING

Equipment used in competition by teams registered with the UCI must comply with articles **1.3.001 to 1.3.025 of UCI Regulations**. Compliance with these rules by all concerned parties is a token of sporting fairness and safety in competition.

Any **technical innovation** is subject to the application of **article 1.3.004**. Such innovations can now be submitted to the UCI at any point in the year. They must be approved and put on the market in accordance with **article 1.3.007** in order to be permitted for use in competition

**Article 1.3.018 on non-standard wheels** relates only to mass-start events. In this type of event, riders currently use non-standard wheels (rims deeper than 2.5 cm; fewer than 16 spokes; spoke thickness greater than 2.4 mm). If any of these conditions is observed, the wheel is considered as a non-standard wheel and must have passed a rupture test to be authorised for use in competition.

Manufacturers of wheels will notify the UCI of the names of wheels which have passed the test. These are shown on the list titled **Non-standard wheels** compliant with article 1.3.018 published under the "Equipment" section of the web site [www.uci.ch](http://www.uci.ch). Wheels can thus be identified unambiguously. If this is not the case, the use of the wheel in competition is not permitted.

The "**Clarification Guide of UCI Technical Regulation**" which has been drawn up jointly with representatives of the AIGCP, manufacturers and international commissaires under the supervision of the UCI Equipment Unit, illustrates and supplements the UCI technical regulations. This aim of this guide is to help ensure that the technical regulations are applied in a consistent manner by the whole cycling family. You may download it from the UCI website [www.uci.ch](http://www.uci.ch), under the "Equipment" section.

The new UCI service for the **approval of frames and forks** came into force on 1 January 2011 in accordance with **article 1.3.001bis**. From this date onwards, all new models of frames and forks used by licence-holders for road, track or cyclo-cross events must be approved. The awarding of a label by the UCI certifies that the new equipment meets the form requirements set out in the UCI Regulations.

As for wheels, a **list of approved models of frames and forks** is available on the "equipment" page of the UCI web site, where all information on the approval procedure is also available. The UCI will carry out unannounced compliance inspections on all approved models at road, track and cyclo-cross events.

The primary aim of the approval processes for frames and forks is to ensure proper compliance with UCI Regulations, while simplifying checking by commissaires, avoiding disputes over the compliance of new equipment and providing future purchasers with the assurance that they are buying a product that is within the rules.

For any other question or additional information, please contact [sport.technical@uci.ch](mailto:sport.technical@uci.ch).

### **RACE CLOTHING (ART. 1.3.056 À 1.3.059):**

**Articles 1.3.056 to 1.3.059 of the UCI Regulations set out various provisions concerning the wearing of national clothing.**

**The world championships are contested by national teams.** Each rider thus represents their country and, whichever it may be, has an equal chance of winning the title of world champion contested on that occasion. There should be no particular distinction between the riders of a given nation (No distinctive edgings on the end of the sleeves).

**At the world championships national team clothing must be worn by all riders of a same national team.** In any particular race they must thus wear identical jerseys and shorts, provided by their National Federation. In other words, the design, colour, location and size of the advertising spaces on team clothing must be identical for all riders. Only certain advertising spaces at the choice of the National Federation may vary from one rider to another.

**The following advertising spaces are authorised:**

- Front of the jersey: 2 zones of 64 cm<sup>2</sup> maximum.
- Space including the shoulder and sleeve: band no more than 5 cm high.
- Sides of jersey: lateral band 9 cm wide.
- Sides of shorts: lateral band 9 cm wide.
- The manufacturer's mark (25 cm<sup>2</sup> maximum) is only permitted once on the jersey and once on each leg of the shorts.
- Advertising on jersey and shorts may differ from one rider to another.
- The design of jersey and shorts may differ from one category to another.
- In addition the rider's name may figure on the back of the jersey.
- The provisions above apply by analogy to other clothing worn in competition (waterproofs, etc).

**Team managers of national teams must submit the national jersey and shorts to the commissaires panel for validation when confirming the starters. They must state which advertising spaces have been allocated by the National Federation for each rider's own sponsors.**

It should also be noted that at the world championships former world champions, continental champions and national champions must wear the same national clothing as their team-mates. They therefore cannot wear distinctive signs such as piping on the cuffs of their national jersey as a reminder of their titles. Not even the outgoing world champion may wear rainbow piping on his/her national jersey.

**The UCI strongly urges National Federations to submit their team clothing for approval before it goes into production in order to avoid any awkward situations arising at the world championships.**
